The Company is committed to growing shareholder value through international exploration, production and acquisitions. Bengal trades on the TSX under the symbol BNG. Additional information is available at [www.bengalenergy.ca](http://www.bengalenergy.ca).

### ***Disclaimers***

*This press release contains certain forward-looking statements that involve substantial known and unknown risks and uncertainties, many of which are beyond Bengal's control. These statements relate to future events or our future performance. All statements other than statements of historical fact may be forward-looking statements. The projections, estimates and beliefs contained in such forward-looking statements are based on management's estimates, opinions, and assumptions at the time the statements were made, including assumptions relating to: the impact of general global economic conditions in Canada and in the United States, industry conditions, changes in laws and regulations including the adoption of new environmental laws and regulations and changes in how they are interpreted and enforced, increased competition, the lack of availability of qualified operating or management personnel, fluctuations in commodity prices, foreign exchange or interest rates, stock market volatility and fluctuations in market valuations of companies with respect to announced transactions and the final valuations thereof, and the ability to obtain required approvals from regulatory authorities. We believe the expectations reflected in those forward-looking statements are reasonable but, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits, including the amount of proceeds, that Bengal will derive therefrom. Bengal's actual financial results, performance or achievement in future periods could differ materially from those expressed in, or implied by, these forward-looking statements, including those material risks discussed in Bengal's Annual Information Form under “Risk Factors and in Bengal's MD&A under “Risk Factors”. The forward-looking statements contained in the documents incorporated by reference herein are expressly qualified by this cautionary statement: The forward-looking statements contained in this document speak only as of the date of this document and Bengal does not assume any obligation to publicly update or revise them to reflect new events or circumstances, except as may be required pursuant to applicable securities laws.*

*When converting natural gas to equivalent barrels of oil, Bengal uses the widely recognized standard of 6 thousand cubic feet (Mcf) to one barrel of oil (boe). However, boe's may be misleading, particularly if used in isolation. A boe conversion ratio of 6 Mcf: 1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.*
